Dear Mr. Weisberg :

National Enquirer, 20¢, Vol. 45. # 41 (?) for June 13, 1971 (was it as I stupidly neglected to grab it when seeing it on the newsstand and then it was not there when I went back to get it) did claim that you have maybe written a new book about the James Earl Ray Case and Martin Luther King killing ? Since this, sensational rag has at times since JFK and RFK has a rather bad habit of timing items with events..it is no accident either with RFK. What my point is---is to ask you direct if you have really written another new book and it is out and who published it ? I cannot identify it right now..and as few make it their business to keep up on this killing thing they do not always catch on to more subtle events transpiring in the background do they ?

THE PSYCHIC WORLD AROUND US by Long John Nebel, Hawthorn Books, Inc., Publishers, NY, 1969, 221 pages has a rather belated weak claim on Lee Harvey Oswald making a call to this radio station and program WOR, for 1963, January, about Cuba-USA...and did you ever read or hear of this claim before ? Was this the real Oswald using his cover with that CIA building,or was this some other man doing a take off ? It is not very detailed for 3 paragraphs.

I do not agree with the assumed Shiran as the only killer as RFK---and have not thought so for some time--there is another gun heard there and also this Shiran is not any work misfit as per the claim at all. It would seem that he, once, again is a CIA lower status worker for this kill group or part time FBI type then ? Ray never did kill King either--it is a paper chase trail they made.

Quebec last fall had this same sort of thing and it would appear they are at work in Canada too for the same reasons. More power to your books. Garrison last book I have seen and as they have taken the time to out [redacted] some more brush off titles...seem most of them....they have some reason to be concerned for only themselves. LBJ does not somehow look that innocent anymore..he gave them permission to sign away the gold reserves which is mainly to German advantage on the IMF set up. And, as we, are about to get cleaned out in this effort..it seems that Germany is making a fool out of us.

I take it that Garrison and his company of men as CIA...January 1960...are making some headway in the ambition of making public the censored facts and people. We have a so-called socialist government in this province which to all intents and put on act is a mere pose and they are German in sentiment and are in league with what can only be a large program of world calibre to promote a World war when they are ready and have the money to back it up with enough population back it up ? What you do and write has some importance to your readers. Carto, of THUL magazine November 1969, is the Lawrence Dennis of this generation and when Carlson U/D RECOVER 1943 N Y Dutton and 1946 THE PLOTTERS N Y Dutton is checked over..one wonders what we have learned in 25-35 years time?

THE RISE of the SOUTH AFRICAN REICH, Penguin African Library, (AP-I2) 1964 and revised 1969, 552 pages, $ 3.25...has enough clues to say what it is--a German front and take over from behind the scenes. Why don't you take a look at this title ? Quebec is no different either. INSIDER of the FOURTH REICH by Charles R Allen, Jr., Marzani & Munsell, Inc., Publishers, I00 West 23 Street, New York, N. Y. I00II, is too brief but basically right in his outlook. Beware the new Reich coming up under that ECH! Etc., etc., and as the Hitler doubles question, has never been really gone into in print at great length--we still have a possible question where did the real Hitler get to in May 1945 ?

January 1969...said there was a new book on the JFK and side effect affair for sale under the counter...this was this same book supposed to be in French and German.. I hope that you can get the drift of it from that too brief comment in order to state just what this title, publisher and cost was ? Was this book, just another slanted job ? Anything new in it ? Have you read it ? Does it occur that a possible JFK kill group men could have helped write up some of these items at odd times..as that monograph triangulation of fire in Dallas does sound like pretty quick work unless it was written by some one in that connection ?

One does suspect that a close double of Edward Kennedy... pulled off that bridge at Chappaquiddick thing and also that he knew nothing about it until after it happened ? Is it possible that this Carto....was one of the fingermen in the chain of command..... and if so--why not just say so and defy Carto and his lobby ? The sensational press leaned over backwards to smear Edward Kennedy ? Could it be that the EDR leg men like Cornelious Vanderbilt who did use the catholic Church for go-between contacts against Hitler are blaming Joseph P Kennedy for some of these antics ? MY LIES OF FIVE CONTINENTS, 1959...EDR's intelligence people have not all been written about even yet ? One also suspects the underground Nazis of the getting too old for politics anymore stage...have some men located within this Catholic Church pipeline in various countries round the world....gave the Vatican some gold--no doubt for a cover and silence.

Ron Gostick, Flesherton, Ontario, is a secret Hate-Nazi rag...and his suggested reading list carries some items like Macey Jordan about the Great Falls , Montana...USSR air lift sterling of US equipment, etc., in other words--the real enemy if the Soviets ? Bad as the Birch outfit..sees commies under all bushes..but the New Democratic Party in Manitoba is a alleged pro socialist party. Slogans...pretending to be pro Jew...and all that but this is all a sock put on front--they are a German nationalist front outfit. Hermchurch play on W S Churchill was for money but this rather infant entertainment is far from a joke...Gruppe is a group of German authors, film men and so on...it is propaganda for the rest of the world to see. David Irving is a small part of that set up. Red Baron in that comic strip is just one more example of this German front stuff and I would love to know what the USA does intedd to do about it ?

Sorry to take your time on Martin Luther King but if you have done a new book then the Government will not be happy about it. Thanks for the time in this.

Yours truly,

M J McCubbrey.
